

LIGHTING FOR INTERIORS

Learn the way light impacts our perception of color and materials, our relationship to the spaces we enjoy, and our daily engagement in work and play. Through educational sessions, exhibit floor features, and industry dialogue – join the conversation about light indoors.

MONDAY May 5

- 1:00 – 4:00 PM** Workshop: “What Did You Say?” — Exploring the Challenges of Communicating Color Science with Others (...But Especially with Building Sciences Professionals)

TUESDAY May 6

- 1:00 PM** AI in Action: Successful Applications in Architectural Lighting
- 2:00 PM** Light and Human Health: Recommendations for Humans
- 3:15 PM** Circadian Rhythm Lighting for Healthcare Applications—A Transformational Experience for Patients, Families, and Caregivers

RECOMMENDED EXHIBITORS

- #1437 EELP
- #1738 FanLight/NaturaLED
- #1253 IALD
- #1321 Illuminating Engineering Society
- #531 Ledra Brands
- #337 Nicor Lighting
- #178 Vaopto

WEDNESDAY May 7

- 8:30 AM** Illuminating Evidence-Based Lighting Design for Healthcare
- 9:45 AM** Light + Materials: A Discussion on How Light Interacts with Architectural Finishes and How Other Interesting Materials Not Typically Used for Permanent Installation Might Be Considered
- 11:00 AM** Lighting the Way: Designing Dynamic Learning Environments
- 12:00 PM** Light Me the Way Home: Residential Lighting Design
- 4:30 PM** Color Pop & Melanopsin: The Spatial Brightness in Architectural Lighting

THURSDAY May 8

- 8:30 AM** Designing Light for Interpersonal Video Communication
- 11:00 AM** The Power of Lighting in the Collective Memory of a City: Historical Narrative of a City, Through Lighting, From the Antique Classic Sources to the Newest LEDs

OTHER FEATURES

Visit the Immersive Installations throughout the show floor featuring art, design, and illumination collaboration.
